

Finishes - White Only

Read these instructions before commencing installation & retain them for future reference.

IP20 240V 3.5W

Important Information

It is recommended that luminaires are installed by a qualified electrician. The installation of this product must comply with the current edition of the IEE wiring regulations BS7671. These products are designed for connection to a 240V 50Hz supply. Any damaged parts should be replaced as soon as possible. KSR will not accept responsibility for any claims arising from a poor installation.

Important User Advice

Always switch off mains supply before installation or servicing. KSR recommends cleaning with a soft lint free cloth to maintain the finish, do not use abrasive cleaners on this product.

Installation Details

Remove the retaining screw from the base of the wall light holding the back plate to the fitting. Secure the back plate to a suitable surface, dressing supply cable to ensure it does not become snagged. Connect the mains supply to the terminal block following the marking on the base and/or the guide in Fig 1 as below. Place the fitting back on to the base plate and secure with the allen screw. Turn on the power and test.
